MIVANTA
PAN India B2B
Distribution Network
India's leading **physical and electronic security** channel distribution platform.
www.mivanta.com

About Us

MIVANTA, a trusted name in the safety and security industry, is dedicated to providing innovative and comprehensive solutions to meet the evolving needs of its partners and clients. With a strong focus on accessibility, timely delivery, and uncompromising quality, MIVANTA has emerged as a preferred choice for distributors, system integrators, and their customers across diverse sectors.

Backed by the world-class reputation and vast experience of MANTRA, MIVANTA has strategically partnered with leading brands to offer a diverse range of products and solutions under one roof. Our mission is to create long-term, value-driven relationships that foster repeat business and customer loyalty.

As the world becomes increasingly conscious of safety and security, MIVANTA is at the forefront, providing expert solutions through a dedicated team of technocrats and a robust network. We believe in being involved at every stage of the customer journey, from consultation to implementation, ensuring that our clients receive the best service and support.

Our commitment to excellence, innovation, and customer satisfaction positions us as a leader in the rapidly growing safety and security industry, with a vision to continue delivering value and building trust with every partnership.

Welcome to Mivanta

MIVANTA India Private Limited, India's leading channel distribution platform for electronic security solutions, offers a wide range of products including Time Attendance, Access Control, Intrusion Alarm, RFID-UHF solutions, Home Automation, Aadhar-based solutions, and more. With a legacy built on precision, quality, and trust, MIVANTA has established itself as the most reliable supply chain platform in the digital security industry.

As a one-stop platform for all security solutions, MIVANTA supports both small and large businesses by providing an extensive array of products in an affordable and seamless manner, helping them build credibility in the market. Our single-point window offers access to best-in-class technology and assured service support, enabling channel partners to achieve sustained success and growth.

MIVANTA has partnered with technology leaders known for their strong brand reputation to provide its partners with cutting-edge solutions. With a dedicated team of technical professionals, we ensure smooth and reliable after-sales service, guaranteeing customer satisfaction at all times.

Leveraging industry expertise and experience, MIVANTA has developed innovative and integrated security solutions in the digital domain that drive market growth and help businesses carve a niche in the industry. Our multiple partnerships with prestigious brands and expert insights allow us to create tailor-made solutions that meet both short-term and long-term business objectives.
In a short span of time, MIVANTA has made its mark as a trusted channel across India by delivering highly advanced, scalable, and reliable technology solutions.

Why MIVANTA is One of India's Best Channel Distribution Platforms

Choosing MIVANTA as your trusted distribution partner brings significant value to your business, enhancing long-term growth prospects. By partnering with one of the fastest-growing brands in the digital security domain, you gain access to multiple solutions, best-in-class services, quick and responsive support, and the trust of a renowned parent company. Here's why MIVANTA stands out:

- Realization of True Business Value:
MIVANTA offers expert analysis to help businesses realize their full potential and make informed decisions.

- Quality Tie-Ups with Multiple Brands:
We partner with leading technology brands to ensure consistent and uninterrupted technology support for your business.

- Access to a Wide Reseller and Distribution Network:
Our extensive network allows businesses to connect with resellers and distributors, expanding reach and opportunities.

- Comprehensive Advertising and Marketing Support:
We continuously promote and market our solutions, helping you choose the right products to meet your business needs.

- Dedicated Expert Team:
MIVANTA's team of professionals is available anytime, anywhere to simplify your business processes and ensure smooth operations.

- Industry Insights:
Our deep understanding of industry trends ensures that our partners stay ahead in the market.

- Certified Technologies and Solutions:
All MIVANTA products and solutions come with certifications, ensuring reliability and adherence to industry standards.

By choosing MIVANTA, you align with a partner committed to driving your business success through innovative, trusted, and scalable solutions.

MORX (Security with Unparalleled Reliability)
A Brand of MIVANTA Indi a Private Limited

With a committed approach and unwavering focus, MIVANTA India Private Limited has transformed the biometric and RFID-UHF solutions industry over the last decade with cutting-edge technologies. MORX, as a brand of MIVANTA, has emerged as a reliable, world-class entity, earning the trust and appreciation of customers nationwide.

Driven by continuous research and development, MIVANTA empowers businesses to adopt more systematic and efficient approaches. Our emphasis on delivering simplified, user-friendly solutions has been instrumental in promoting automated intelligence, fostering long-term partnerships with clients and partners alike.

MORX offers a comprehensive range of products catering to diverse business needs. In a short span of time, it has gained a solid foothold in the industry, becoming a highly sought-after brand for biometric solutions, RFID-UHF solutions, and access control accessories. With a network of over 5,000 partners and numerous satisfied customers, MORX stands as a testament to reliability and innovation in security solutions.

Mission, Vision, and Values

At MIVANTA, we are committed to redefining excellence in the digital security domain by delivering innovative, reliable, and customer-focused solutions.

Mission
MIVANTA aims to:
•Enrich and accelerate the growth of its partners through cutting-edge solutions.
•Establish a new benchmark for credibility and trust in the security industry.
•Create a mutually beneficial platform that fosters growth for both MIVANTA and its partners.

Vision
MIVANTA envisions becoming a leading force known for its innovative products and solutions, consistently adding value to the businesses we serve and helping them thrive in a competitive landscape.

Values
MIVANTA is driven by core values that shape our commitment to excellence

•Customer Satisfaction:
Ensuring our partners' success and satisfaction in every engagement.

•Promise of Quality:
Delivering best-in-class products and services that exceed industry standards.

•Integrity:
Building trust through transparency, honesty, and ethical business practices.

•Commitment to Deliver:
Upholding our promises with timely delivery and unmatched support.

AI Based Face Recognize Device (Project Series)

MIVANTA

BioFace MSD5K

- Single user / Multi user
- PIN
- Fingerprint
- RFID Support
- Palm
- 0.5-2.5 meters Reading Distance
- 2MP Colorful WDR
- 4.3 inch Touch Screen
- Access Control
- 99.70% Recognition Accuracy
- <0.2s Recognition Speed

BioFace MSD5K Mini

- Face
- RFID Support
- Palm Detection
- PIN
- 4.0 inch Touch Screen
- Mask Detection
- 0.5-2.5 meters Reading Distance
- Photo Capture
- Access Control
- Live Face Detection

BioFace MSD20K

- Face
- Fingerprint
- EM Card
- WiFi
- QR Code Reading
- Mask Detection
- 0.5-2.5 meters Reading Distance
- Access Control
- TCP/IP
- POE
- GPRS

BioFace MSD24K

- Face
- Fingerprint
- EM Card 13.5Mhz
- WiFi
- QR Code Reading
- Mask Detection
- 0.5-2 meters Reading Distance
- Access Control
- TCP/IP

BioFace MSD50K

- Single user / Multi user
- Fingerprint
- PIN
- Palm
- RFID Support
- 8.0 inch Touch Screen
- Access Control
- 0.5-2.5 meters Reading Distance
- Photo Capture
- Live Body Detection
- Multi Language

BioFace MSD100K

- Face Recognition
- Fingerprint
- PIN
- Card Reader
- Palm
- QR Code Reading
- Access Control
- Visitor Access
- Time Attendance
- Fast Speed
- AI Algorithm
- Large Capacity

Time Attendance & Access Control Solution

mBio G1

- 2.4" Color TFT Screen
- 1,000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type Finger/Card/Pin
- Communication : TCP/IP, USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

BioTime 16

- 2.4" Color TFT Screen
- 1,000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type: Finger/Card/Pin
- Communication: PENDRIVE
- Push Data Technology: NO
- EXCEL OUTPUT

BioTime 5N

- 2.8" Color TFT Screen
- 3000/5000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type: Finger/Card/Pin
- Communication: TCP/IP, USB (WIFI/GPRS optional)
- Push Data Technology: Yes
- Inbuilt Battery Backup

BioTime MR110

- 2.8" Color TFT Screen
- 2,000 Fingerprint/Card/Pin
- 2,00,000 Transactions
- Identification Type : Finger/Card/Pin
- Communication: TCP/IP, USB
- Inbuilt Battery Backup
- Push Data Technology: Yes

EXCEL OUTPUT

mBio-ST1

Standalone with Wiegand

- 1,000 Fingerprint/Card/Pin
- 1,00,000 Transactions
- Identification Type: Finger/Card/Pin
- Pen drive Communication
- Support Wiegand26/34 Card Reader

Without Power Adaptor (12v 2amp)

mBio-ST2

Standalone with Wiegand

- 500 Fingerprint/Card/Pin
- Identification Type: Finger/Card/Pin

Without Power Adaptor (12v 2amp)

SEM03

- Card and Pin based Access Control
- Standalone with Wiegand
- 500 Card/Pin

Without Power Adaptor (12v 2amp)

FA200 LD

- 3.5" Color TFT Screen
- 1500 Face, and 1500 Cards
- 3,00,000 Transactions
- Identification Type: Face/ Card
- TCP/IP
- Push Data Technology: Yes

Time Attendance & Access Control Solution

MIVANTA

BioFace MSD1K

- 2.8" Color TFT Screen
- 1000 Face, Card, 5000 Fingers
- 3,00,000 Transactions
- Identification Type : Face/Finger/Card/Pin
- TCP/IP & USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

BioFace MSD1KW

- 2.8" Color TFT Screen
- 1000 Face,Card, 5000 Finger s
- 3,00,000 Transactions
- Identification Type : Face/Finger/Card/Pin
- WiFi, TCP/IP & USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

BioFace MSD2K

- 2.8" Color TFT Screen
- 800 Face, 3000 Fingers, 3000 Cards
- 3,00,000 Transactions
- Identification Type : Face/Finger/Card/Pin
- TCP/IP & USB
- Push Data Technology : Yes
- Inbuilt Battery Backup

WebPass (In-Built HTTP Server)

- IP65 Outdoor weather proof reader controller
- 20,000 Cards (Proximity/Mifare)
- 65,535 Transactions
- Identification Type: Card/Pin
- Communication: TCP/IP, Wiegand (26/34 bit)
- Built-in http server

Without Power Adaptor (12v 2amp)

BioWeb-C2

- 2.8" Color TFT Screen
- 9,590 Fingerprints & 20,000 Cards
- 65,536 Transactions
- Identification Type: Finger/Card/Pin
- Communication: TCP/IP, RS485, Wiegand
- Built-in http server
- Push Data Technology: Yes

Without Power Adaptor (12v 2amp)

BioWeb-RC1

- IP54 In/Outdoor weather proof Access Control
- 9,590 Fingerprints & 20,000 Cards (Opt: Mifare)
- 51,968 Transactions
- Identification Type: Finger/Card
- Communication: TCP/IP, RS485, WG 26/34 out
- Built-in http server
- Push Data Technology: Yes

Without Power Adaptor (12v 2amp)

RFID-UHF Solution

MIVANTA

Inventory Management

Inventory Management using RFID. RFID labels are attached and read using RFID readers, portals, handhelds, sleds and are printed with RFID printers.

IT Asset Management

RFID asset tracking is an accurate and secure way to track your physical assets using RFID technology and hardware such as readers and tags.

Sugar Industry

RFID solution automates the vehicle tracking and data updates in near-real-time and generates receipts at the point of entry for farmers.

Traffic Management

RFID Based Traffic management for smart city and smart governance project.

Toll Connection

We are the leading supplier of FASTag hardware in India. We offers FASTag reading devices to all our clients which helps in smoothens the traffic flow over toll plazas.

Solid Waste Management

RFID based solid waste management system can transform waste management by enhancing efficiency, cost-effectiveness, and sustainability

Smart Parking

Parking Control System is a control and monitoring system designed for use at residential condominiums, gated communities, business parking garages, university parking areas, and hospitality or retail centers.

School Attendance

RFID School Attendance time tracking for teachers and students. RFID Attendance Solution it is a complete time-tracking solution.

Warehouse Management

Eliminate manual data processes: using RFID tagging in your warehouse through mivanta rfid hardware and tags.

RFID-UHF Solution

RFG-CR 32

- Reading distance: 0-15m (depend on tag)
- Linear 12dBi built-in Antenna
- RS232,Wiegand, Relay
- Read only Registered Tags on Mask Mode
- Direct connect with Boom Barrier

RFG-CR 32N

- Reading distance: 0-12m (depend on tag)
- Linear 12dBi built-in Antenna.
- RS232,USB,Wiegand
- Connect with any Access Controller to manage the Boom Barrier Parking.

CR 33

- Reading distance: 0-8m (depend on tag)
- Circular 9dBi Circular built-in Antenna. RS232,Wiegand, Relay
- Connect with any Access Controller to manage the Boom Barrier Parking.

CR 33L

- Reading distance: 8-10m (depend on tag)
- Circular 9dBi built-in Antenna
- TCP/IP, RS232,Wiegand, Relay,
- Impinj R2000 chip solution
- RF power-30Dbm

RFG M Power 200

Android Industrial 25m long reading Handheld Reader.

- Android 12 & Octa-core
- Read Range >25m
- 10,000mAh Battery
- Impinj R2000 / E710 RAIN RFID reader chip
- IP65 Sealing
- 1.2m Drop Proof

HR 15T

-Reading distance: 0-12m (depend on tag)
-RS232, RS485,Wiegand,Rj45,TCP/IP
-Circular 9dBi built-in Antenna
-IP66 Protection level
-1 Lakh Cache Memory
-Memory-Flash 128MB;DRAM-32 MB

ON Metal Tag

The Tag is ideal for Manufacturing, Automotive, Trolley/ Pallet Tracking PIPE & Spool Tracking, Construction Material Tracking.

Anti Tamper Proof Tag

This windshield tags offers a high performance along with best anti tamper feature. Feature based on Alien 9654 Inlay and 3m 467MP Adhesive.

SEMAC Controller

The Wiegand Door Access Control Panel is designed to support 2 doors, making it suitable for a variety of access control applications.

HID Controller

ACW2-XN is the new Global HID Access controller based on your browser, developed based on the needs of small and medium enterprises.

RFID-UHF Solution

MIVANTA

RFG-CR 06

Mid Range Reader with
TCP/IP and relay

- Reading distance: 6 meter
- Reading performance <200 tags
- ARM7 core processor
- Working mode Active mode

RFG-CR 15

Long Range Reader with
TCP/IP and relay

- Reading distance: 15 meter
- Reading performance <200 tags
- ARM7 core processor
- Recognition prompt Buzzer or LED flashing

RFG-CR 20

Long Range Reader with TCP/IP and relay

- RF power 0-33dBm
(power software adjustable)
- Reading range20 mtr
- ARM7 core processor
- Antenna parameters 9dBi
linear polarization antenna
(built-in)

RFG CC04 Four Port Fixed Reader

Four Port Fixed Reader

- Impinj E710 chip engine
- Max inventory speed 800 tags/s
- Support multiple c#, java,
vc language for development

RFG HA15

9Dbi Circular Antenna

- IP67 protection level, suitable for
outdoor scenes
- Standard 3-meter feeder, RG58
(outer diameter 5.0) feeder
- Application:
warehouse management, clothing management,
animal management, logistics management,
production management, smart cabinet management

RFG WD01

- UHF Desktop Reader/ Writer,
Interface, USB - Keyboard emulator
/ HID/
- USB CDC (Visual Serial Port), With the
function as USB Interface,
- For Window, iOS, Android, Linux

NFC Metal Tag

- NFC Sticker Tags
- Chip : Ntag213
- Physical capacity : 180 bytes
- Usable capacity : 144 bytes
- Working frequency: 13.56 MHz
- Reading and writing distance : 1 to 5 cm

NFC Label Tag

- NFC Sticker Tags
- Chip : Ntag213
- Physical capacity : 180 bytes
- Usable capacity : 144 bytes
- Working frequency: 13.56 MHz
- Reading and writing distance : 1 to 5 cm

YOUR DIGITAL IDENTITY

Aadhar Solutions

Aadhaar is a biometric resident identification program from the Govt. of India. It aims to empower the citizens of India with a unique identity by building a digital platform for the authentication of an individual at any time and at any place. It helps to access government services related to various welfare schemes in education, banking, health care, agriculture, insurance, telecom, and other sectors.

Aadhar Solution

MIVANTA

MATISX

- Simultaneous Dual IRIS Capture
- Auto capture mode with built-in quality check
- Supports Windows x86 and x64, Linux

MORPHS

- Single flat finger image capture
- Registers four finger slaps & two thumbs
- Scratch free sensor surface

MBAS10/20

- Scratch Free Optical FAP10 L1 Sensor
- 8GB Flash + 1 GB RAM
- 5MP Auto Focus Front Camera with Flash LED

MIS100V2

- Lowest FAR and FRR
- STQC Certified Product
- Supports Windows, Linux & Android OS.

MARC 10

- Advanced Capacitive Sensor
- 0.040 Kg Approximate Weight
- Scratch Free Sensor Surface

MFS 110

MFS110 is an elegant fingerprint device used for identification, verification and authentication processes of an individual. MFS110 offers secured biometrics data, error-free and reliable identification based on unique fingerprint biometric technology. It is fast & easy-to-use. It can be used as an alternative or a complement to those hard-to-remember passwords.

- Scratch free sensor surface
- High speed USB 2.0 interface with secured communication
- MINEX Compliance extractor
- Auto Finger Detection
- Lowest FAR and FRR
- 500 DPI optical fingerprint sensor
- Support Windows , Android, Linux
- STQC / Aadhaar Certified

Transmitter
Wireless module to integrate one third-party wired device into the Ajax system

MultiTransmitter
Wireless module to integrate up to 18 third-party wired device into the Ajax system

SpaceControl
Wireless Keyfob with panic button & control for security modes

HomeSiren
Wireless indoor siren with an LED connector

StreetSiren
Wireless siren with LED frame for outdoor & indoor

StreetSiren DoubleDeck
Wireless outdoor siren with a clip lock for a branded faceplate

Brandplate
Faceplate for branding on StreetSiren DoubleDeck

Technologies

Wireless communication

Jeweller

- Transmission of commands, alarms, and events
- Automatic power control to reduce power consumption
- Frequency hopping to prevent radio interference and jamming

Wings

- Transmission of photo verifications, big data packages, and firmware updates
- Data backup in case of communication loss
- Data resend upon restored communication

Wired communication

FIBRA

- Multifunctional lines for different types of devices
- Transmission of alarms and photo verification
- Automatic line scanning
- Power consumption stress test

Video transmission technology

JetSparrow

- Ultra-fast VMS experience
- Peer-to-peer transmission
- TLS encryption
- High stability
- Live view without any

Superior Fibra | Wired Intrusion Protection

Hub Hybrid (2G)

Hybrid control panel works with Fibra & Jeweller devices

Ethernet 2G

Superior DoorProtect

Wired opening detector with two reed switches

Superior DoorProtect G3

Wired opening detector with shock, tilt & magnetic masking sensors

Superior DoorProtect Plus

Wired opening, shock & tilt detector with two reed switches

Wired siren with LED frame for outdoor & indoor use

Superior MultiTransmitter

Module to integrate up to 18 third-party devices into Ajax system

MultiTransmitter IO (4X4)

Module with 4 inputs & 4 outputs designed to integrate third-party devices into Ajax system

Superior MultiRelay

4-channel relay with potential-free contacts to control power supply remotely

LineProtect

Module to protect devices on the Fibra line from short circuits & sabotage

LineSplit

Module to split one Fibra line into four lines

LineSupply (45 W)

Module for additional power supply with 45 W power & one output Fibra line

LineSupply (75 W)

Module for additional power supply with 75 W power & two output Fibra lines

Superior Fibra | Wired Intrusion Protection

Case A (106)
Casing for Ajax module

Case C (260)
Casing for Ajax module &
7Ah battery

Case B (175)
Casing for one or two
Fibra modules

Case D (430)
Casing for up-to 8 Ajax
modules & two 18 Ah batteries

Video Surveillance

DoorBell
Video doorbell with built-in AI,
PIR sensor, and control via apps

Network video recorder for
16 channels

Software

Ajax Security System. Control security and automation; receive push notifications about alarms and events.

Ajax PRO: Tool for Engineers. Monitor and administer all facilities from a single interface, add new devices, and remotely configure and test Ajax systems.

Ajax Desktop: A new desktop application designed specifically for end-users. It offers a larger screen interface, seamless access to cameras, and intuitive controls. With Ajax's signature user-friendly design, instant notifications, customizable video wall, fast responsiveness, and strong privacy protection — now available in a desktop format.

PRO Desktop. Seamlessly manage remote configuration, alarm monitoring, photo verification, staff administration, and a detailed event log in one intuitive interface.

API. Build integrated solutions based on Ajax products.

Loved by end users

Ajax security system combines the reliability of professional security equipment with the user experience of smart home gadgets. People understand how Ajax works in minutes. The latest customer satisfaction survey shows that 9 out of 10 Ajax owners would recommend the system to their friends and families.

- Free and user-friendly apps
- Alarms delivered via push, SMS, and calls
- Free firmware updates to deliver new functionality

Trustpilot

4.6 star rating
5,875 customer reviews

Over
1,500,000
people worldwide
under Ajax protection

Ready to protect any property

The Ajax system suits any interior and fits any premises. The system protects your property against burglars and instantly reacts to water leaks, fires, dangerous CO and CO2 levels.

MINOP API

Biometric Attendance Cloud API

It supports the Biometric cloud API for the integration of biometric time, attendance, and access control devices with any website or web application. It provides robust REST APIs for transaction activities that let your server application to interface with biometric equipment.

Attendance API allows your server to accept biometric attendance data in real-time from biometric devices over a RESTful URL. Therefore, your biometric cloud solutions would always have biometric data in real-time.

Management API enables the remote installation application to manage biometric device user transaction data.
